N.O. PLASMACORE™ — MEGA-DOSED NITRIC OXIDE EXPLOSION

Be one of the first to know what it's like to have 64 ultra-pure ingredients simultaneously igniting your anabolic, neurological and vasodilatory systems after just one powerful dose of N.O. PlasmaCore™ — the new, potent preworkout anabolic nitric oxide formula from the Muscle Asylum Project™.

Scientifically superior to regular nitric oxide products for increasing muscle size and strength, N.O. PlasmaCore™ contains a clinically proven key ingredient that helped test subjects pack on 340% more muscle than the placebo group over 21 days, calculated using triple-verification with calibrated skinfold calipers (4.84 vs. 1.1 pounds).

N.O. PlasmaCore™ is engineered to work faster than regular nitric oxide formulas, so you don't have to wait forever for it to kick in. With the exclusive Rapid Wave Pulse Technology™ driving a precise portion of a key ingredient, fractionated compounds of varying molecular sizes are engineered to filter into your system in successive waves — triggering an extreme muscle cell expansion at your body's core.

Get the most explosive muscle pumps of your life and drive a mega-dosed rush of anabolic nutrients deep within the muscle cells for longer-lasting muscular expansion. Get N.O. PlasmaCore™ at GNC and GNC Rite Aid locations. For more information visit www.MuscleAsylumProject.com

METABODERM

Metaboderm represents a quantum leap in the fight against cellulite and bodyfat. Metaboderm's revolutionary formula is designed with the patented Regu-slim® complex and can be used to target cellulite and fatty skin in areas such as the abdomen, waist, hips, arms, buttocks and thighs. Metaboderm's multi-action tightening and toning complex targets trouble areas by attacking the three critical components of fat loss (fatty acid liberation, transport and breakdown). A leaner, tighter and more toned you is only a click away at www.trionix.com

WHEY UP

WheyUP, the original protein drink with energy is the ultimate preworkout drink. The first of its kind on the market, WheyUP is two drinks in one: A protein drink and an energy drink. It combines 20 grams of whey protein with an energy formula in a sugar-free, non-carbonated beverage. WheyUP will be sold in ready-to-drink 16-ounce plastic bottles, in two tasty flavors: berry and citrus. With only 90 calories, one gram of carbs and zero fat, WheyUP is ideal for fat loss, exercise or weight-training programs, and athletic activities. Visit www.WheyUP.com

ENTER THE ANABOLIC AXIS

Dark Matter takes a quantum leap forward into a new dimension of post-workout muscle growth called the Anabolic Axis — the time and point when insulin levels peak with amino acids, creatine and glycogen and transport into muscle tissue during the critical one-hour period following your workout. Dark Matter is the first and only supplement to employ a new technology called Precision Nutrient Infusion, which allows this synergistic anabolic reaction to occur at the Anabolic Axis. MHP scientists bio-engineered new compounds and a revolutionary High Velocity Nano-Physics Technology to achieve this major breakthrough. These developments have rendered all post-workout creatines, whey protein/high carbohydrate combos and all other formulas inferior and outdated. Dark Matter opens the “anabolic window” faster, wider and longer allowing you to enter the Anabolic Axis for the most powerful reaction ever. Dark Matter absorbs faster than whey isolate, increases protein synthesis by 600%, dramatically spikes insulin with WaxiMAX-C3G, replenishes glycogen and increases cell volume with a multi-phase HydroSize Creatine Transport, making it the ultimate post-workout mass building formula.

SUPREME PROTEIN'S NEW PEANUT BUTTER CRUNCH FLAVOR

Supreme Protein, maker of the enormously popular protein bar of the same name has followed their smash-hit Caramel Nut Chocolate with a new entry, Peanut Butter Crunch.

Have you tried one? If not, you're missing out on a sweet sensation. Caramel Nut Chocolate was the first protein bar that makers could claim tasted better than candy. Peanut Butter Crunch offers more of the same. Even major convenience stores like 7-Eleven are having trouble keeping the bar in stock.

Supreme Protein bars boast more than gourmet-quality creamy nougat, crunchy peanuts, peanut butter, and protein crisps. This bar contains 30 grams of protein with massive amounts of premium whey isolate, only 7 grams of net carbs, 5 grams of sugar, flax seed oil, vitamins, minerals, and zero trans fat.

You can find Supreme Protein at many national convenience stores, online at www.supremeprotein.com or call 1-888-739-9881.
